## Commission on University Purpose Releases Report

It comes softbound with the reassuring gold *Quaecumque Vera* stamped on the green cover. It's the *Report of the Commission on University Purpose* and if one word was called for, that word would be "engrossing." Two and a half years of research and deliberation went into the writing of the report and it shows. While the nineteen-member Commission allows that "some topics have not been explored in depth and that there may be others which have not been addressed, there has been a real attempt to integrate the ideas and views from the eighty-eight briefs and oral presentations, and from discussions among Commission members, in the formulation of conclusions.

It is the Commission's fervent hope that as a result of the report, the general community will gain a better understanding of a university, and that the university community will be "stimulated to question, discuss, debate, and reach some conclusions as to its own nature, purpose, and function for the 1980s."

The report, part of the Senate's contribution to the 75th Anniversary Year of this University, was presented at the 30 April meeting of Senate, a day defined by President Horowitz as "a very important day in the life of the Senate and the life of the University."

With Commission Chairman Dave Usher, Vice-Chairman Reg Basken, and members Dorothy Richardson, Mary Lobay, Gary Campbell, and Thelma Scambler leading the way, Senate eased through a number of sections

including those on "University Purpose: Background and Resources," "University Purpose: Influences for Change," "University Purpose: What it Should be in the 1980s," "Conclusions," and "Statement of the Nature and Purpose of a University." Since a full-scale examination of what our University does was not within the Commission's terms of reference, conclusions rather than recommendations were set down. Among the five pages of same are the following:

- The University has stressed that it is underfunded, while the provincial government has stated that funding has been generous. There is a need for more public discussion and debate on the question of public funding for post-secondary institutions.
- The Edmonton Area Survey conducted by the (University's) Population Research Laboratory indicated that much of the public has little or no knowledge of The University of Alberta. The interests of the University would be well served by the development of an ongoing, effective public awareness program which would keep the general public informed about the activities and accomplishments of the University.
- The University of Alberta should take steps to strengthen its graduate studies program in order to develop a cadre of skilled researchers and assistants with the potential of becoming the faculty of the future.
- Universities should recognize that research and teaching functions are of equal importance. In support of this,

The University of Alberta should revise its policies on promotions and salary increases in such a way that equal weight is given to the research and teaching activities of faculty members.

- The University of Alberta should encourage an interdisciplinary approach to research and recognize the importance of viewing scientific advances in a holistic way.
- The University of Alberta should re-examine the validity and present application of tenure.
- The importance of liberal learning as an integral part of a university education is not fully appreciated by a large proportion of the public.
- A university, if it is to retain its

identity and remain different from a technical school, must uphold its allegiance to the idea of liberal education.

- The Government of Alberta should provide perpetuating scholarships for Canadian and foreign students to attend The University of Alberta.

The Report of the Commission on University Purpose, while not required reading, is very basic and thought provoking reading in that it capably synthesizes the many elements which perhaps best facilitate an understanding of the purposes and functions of a university. Copies are available through the Senate Office, 150 Athabasca Hall, telephone 432-2268. □

## Reconstruction Complete on Assiniboia Hall

The hoardings are gone, the rubble cleared away, and Assiniboia Hall is back in business. After nearly two years, the reconstruction of the second oldest building on The University of Alberta campus is complete and a number of academic and support services are taking up occupancy in the building which was once in imminent danger of being torn down.

Like its sisters, Pembina and Athabasca, Assiniboia Hall (built in 1912) was originally used as an all-purpose building where classes were held and students were housed. And, like its sisters, the years were hard on Assiniboia Hall. The 1970s saw concern

mounting over the deterioration taking place until, in 1978, the building was declared officially unsafe and was abandoned.

The subsequent decision to demolish Assiniboia Hall and erect a new building on the site was economically sound, but historically unpopular, and eventually it was reversed. The Board of Governors announced that \$4 million (including a \$1 million grant from the provincial government) would be allocated to reconstruct the building. BHC Architects, the same firm responsible for the very successful renovations of both Athabasca Hall and Pembina Hall, was chosen to design the

reconstruction. General Contractor for the project was P and M Construction and Jim Bain from the University's Design and Construction Office was appointed Construction Supervisor. (Mr. Bain, scheduled to retire at the end of January, has, in fact, stayed on to see the project to its completion.)

The plan for Assiniboia was basically the same as that for Athabasca; gut the inside, and keep the outside. In a process similar to that used for Athabasca, the interior of Assiniboia Hall was completely removed, floor to ceiling, wall to wall, with little or no damage to the original exterior.

Things went according to plan, with one or two notable exceptions, according to Michael Szyling, Project Officer in charge of the Assiniboia reconstruction. Some of the original beams were to be incorporated into the new design, and, while the beams were sound, they proved to be quite crooked. "It was a bit of a surprise to discover just how crooked they were," says Mr. Szyling. "And quite a job to shore them up and make them level."

The other disappointment was the condition of the sandstone and some of the brick work. "There must have been a sale on

cheap sandstone when they were building Assiniboia. It just crumbled when we began work," explains Mr. Szyling. As a result, all the window sills and cornerstones had to be replaced. Otherwise, the exterior has been preserved.

"Once the decision was made to keep the building, everyone involved moved ahead with enthusiasm," recalls Ron Phillips Vice-President, (Facilities and Services). "We have a really good building now, good value for our money. I'm particularly pleased that we've been able to keep all three old buildings. They

constitute an important part of our heritage."

And what of the new occupants? First in and settled was the Department of Linguistics, occupying most of the fourth floor (general office, room 432). Gary Prideaux, Chairman of Linguistics, agrees with Mr. Phillips. "A very fine job has been done on the reconstruction," he says. "We are certainly pleased with our new facilities."

Following Linguistics into the new quarters in Assiniboia Hall will be Pension and Benefits Administration, on the third floor

(general office, room 302); Personnel Services and Staff Relations, second floor (general office, room 240); Occupational Health, Safety and Fire, also on the second floor; and several terminal labs and consulting areas for Computing Services on the lower floor. In addition, there is some general University space, as yet unassigned. Phone numbers for all departments moving to Assiniboia Hall will remain unchanged.

An official reopening for Assiniboia Hall is being planned. □

---

## Rodney Schneck Awarded McCalla Professorship

Rodney Schneck is, in his words, an "eclectic social scientist." His curriculum vitae reinforces that assessment and gives rise to the description "kinetic social scientist." The most recent recipient of a McCalla Research Professorship, Dr. Schneck has stepped lively in a number of endeavors. On his own or in collaboration with colleagues, he has recently published articles in a variety of journals such as *The Canadian Journal of Political Science*, *The Canadian Journal of Sociology*, *Journal of Canadian Studies*, *Canadian Journal of Public Administration*, *Administrative Science Quarterly*, *Academy of Management Journal*, *Organization Studies*, and *Journal of Advanced Nursing*.

He, along with colleagues, has helped make original contributions to the empirical understanding of right-wing extremism, anti-Americanism, the political ideology of businessmen, and power in organizations.

A Professor of Organizational Analysis and Associate Dean of the Faculty of Business Administration and Commerce (his second three-year term expires next month), Dr. Schneck's current research centres on organizational stress and effectiveness; the McCalla Professorship provides the wherewithal to concentrate

diametrically on that research in 1982-83.

A native Albertan, Wetaskiwin to be exact, Dr. Schneck has been with the Faculty since 1966. He took his advanced education at the University of Denver (BSBA, MBA) and at the University of Washington (PhD).

Dr. Schneck has taught at the Banff School of Advanced Management for the past ten years and has participated in numerous management development programs and consulted for a variety of public and private organizations. □

---

## Political Science Set to Welcome EFF Distinguished Visitor Donald Smiley

In Donald V. Smiley, The Department of Political Science will bring to the campus the most recognized scholar in Canadian government. Professor Smiley's expertise on the constitution, federalism, and human rights makes his visit, 26 May to 4 June, most timely. Of his books, chapters, and articles, probably the best known is *Canada in Question*, a classic on Canadian federalism.

A triple graduate of our University (BEd., MEd., MA), Professor Smiley holds the PhD from Northwestern University. After distinguished careers at UBC and Toronto, he is now Professor of Political Science at York University. He is a Past President of the Canadian

Political Science Association and a Fellow of the Royal Society of Canada.

Professor Smiley will present a public lecture on "The Twilight of Political Authority in Canada or Can We Give Canadian Democracy a Human Face" Wednesday, 2 June, at 8:30 p.m., in Education North 2-115. There will be three public discussions on the Constitution: "Federal-Provincial Conflict and the Westminster Model," "The Canada Act 1982: And National Unity," and "The Canada Act 1982: Substance and Consequences." These seminars are planned for the late afternoon of 26, 27, and 31 May. For further information, call 432-3771. □

## Rutherford Award Winners Announced

The first recipients of the Rutherford Award for Excellence in Undergraduate Teaching have been announced. Roger Beck (Business), John Kuspira (Genetics), and Charles Stelck (Geology) were honored at a reception held on Tuesday, 11 May at University House. The purpose of the award, named in honor of A.C. Rutherford, first Premier of Alberta, is to "publicize (teaching) excellence to the University community and the wider community, to encourage the pursuit of such excellence and to promote informed discussions of teaching and its improvements at The University of Alberta."

Professor Beck received his BS from the Massachusetts Institute of Technology in 1962, his MBA from Northwestern University in 1963, and his PhD from the University of Chicago in 1972. He joined our University's Faculty of Business Administration and Commerce in 1972 and, since 1976, has held a joint appointment with the Department of Economics. Professor Beck has taught a wide range of undergraduate courses in his years at the University including "Principles of Economics," "Managerial Economics," and "Contemporary Economic Problems."

"Both his students and his colleagues agree that Professor Beck excels in all aspects of teaching performance," says Stuart McFayden, Chairman of the Department of Marketing and Economic Analysis. "He is a fine choice for the Rutherford Award."

In addition to his teaching load, Professor Beck has published widely and has served on numerous University committees.

John Kuspira is a graduate of the University of Saskatchewan (BSc, 1951 and MSc, 1952) and The University of Alberta (PhD, 1955). He joined the staff of The University of Alberta in 1954 and many credit him with being the driving force behind the creation of the Department of Genetics.

Recognition for the excellence

of his teaching is not new to Dr. Kuspira. In 1981 he was awarded the prestigious Faculty of Science Award for Excellence in Teaching, and at that time was described as a man who "creates an atmosphere in his lectures that brings out the individual potential of all his students."

Dr. Kuspira was Associate Dean of Science from 1969 to 1981, President of the Genetics Society of Canada in 1975-76, and the Canadian representative on the International Union of Biological Sciences from 1976 to 1979. He has served on numerous University, national, and international committees.

Dr. Stelck is ranked as one of the most respected and foremost geologists in western Canada. After receiving his Bachelor's and Master's degree from this University, he went to Stanford University to attain his PhD. He joined the teaching staff at The University of Alberta in 1948 and, in his own words, has become a "popular fixture" within the Department of Geology.

He has taught numerous courses and, judging from letters from his students, he has taught with excellence. "Being taught by Charlie Stelck is being taught by the best" is a sentiment expressed repeatedly.

In 1979 Dr. Stelck was cited as an honorary member of the Canadian Society of Petroleum Geologists, and he has just been awarded the prestigious Logan Medal by the Geological Association of Canada.

At the reception, President Horowitz emphasized the continuing importance of quality teaching within the University and, further, congratulated the selection committee on their choices for the first awards.

George Baldwin, Vice-President (Academic), introduced Drs. Beck, Kuspira, and Stelck. A special guest at the afternoon reception, Mrs. H.S. McCuaig, daughter of the late Premier Rutherford, presented mounted and engraved carvings to the three winners.

The Undergraduate Teaching Awards Committee was chaired by Ann Hall, Department of Physical Education. The members of the committee are Rosemary Nielsen (Classics), Tom Nelson (Psychology), Abe Friesen

(Pharmacy), Frank Kozar (Alumni representative), Susan Peirce (Alumni Association), and Paul Fitzgerald (Faculte Saint-Jean). John Laing is Secretary to the Committee. □

## Interest Rates Particularly Nettle some to Graduate Students

Canada's escalating interest rates have imposed a heavy burden of financial insecurity on graduate students, says the President of the University of Alberta Graduate Students' Association (GSA), with particular stress resulting in the areas of student loans and housing.

Speaking to the Alberta Federation of Labour public forum on the problem of high interest rates held recently at Grant MacEwan Community College, Political Science student Bob Ascah said graduates who have received government loans face extremely heavy interest burdens within six months of graduation. While the similar interest situations are faced by shopkeepers, professional groups, and large corporations, graduate students are not able to "pass along" the ensuing higher costs, but must absorb them themselves.

Mr. Ascah said the progressive increase in interest rates in the late '70s and, more specifically, the behavior of interest rates over the past six months, has had a disruptive effect on the finances of all students attending post-secondary institutions.

In addition, the GSA President said higher interest costs have had a direct impact on the cost of housing, which is a major component of a student's living expenses. Not only have high interest rates retarded the construction of new residences, but they have also led to higher rental charges due to the re-negotiation of existing mortgaged

property. This problem is extremely serious in Edmonton because of the low priority given public and community housing projects.

"Adequate housing at a reasonable charge is not a privilege, but a right in our society," he commented. "High interest rates have made what should be a basic right for all citizens a privilege available to those who can afford it."

"Graduating students, many of whom are living on a small stipend and supporting a family, are victims of the government's economic policies, which fight inflation on the backs of those least able to stretch their budgets."

Mr. Ascah said the ultimate results of the current crisis in public finance will force small businesses into receivership, laborers into the street, and university graduates into a job market denuded of employment prospects. □

## This Week's Quote

"Does the curriculum include armed and/or unarmed combat?"

Source: Retiring Senate member Anne Burrows following a presentation to Senate by Dean Bachynski on the Faculty of Pharmacy and Pharmaceutical Sciences. At one point he noted that Alberta's 600 pharmacies average about one break-in/robbery per day. □

## Society of Dentistry '82 Attains Altruistic Heights

The Society of Dentistry '82 (all students of the graduating dental class of this University) is high society as far as personnel of the Edmonton General Hospital and the Rosecrest Home are concerned. The Society, founded in hopes of raising sufficient funds to improve dental facilities for the geriatric and disabled people of Edmonton, has been involved with fund-raising projects since December 1980. A toothbrush exchange on campus, a raffle for a trip to Las Vegas, and a casino worked wonders for the coffers and a \$3,000 grant from the Alberta International Year of Disabled Persons Committee was latched onto with alacrity. After a year and a half of planning and diligent effort, the Society had raised \$27,817.16 and a corresponding wealth of generous feeling.

An Orthopan 5 and a portable dental unit for the Geriatric Teaching Unit, Youville Memorial Wing, Edmonton General Hospital, and a fully

equipped mobile dental facility for the Rosecrest Home were purchased. The Orthopan allows for dental radiographs to be taken extraorally, and one exposure will pan the entire area, thus resulting in less radiation exposure to the patient.

As for the portable dental units, they will be very instrumental in providing services to bedridden patients.

The crowning activity was the presentation of the equipment in the main auditorium of the Edmonton General Hospital on 5 May. Joining with the beaming students in celebrating the completion of their graduation project were The Honorable Dave Russell, Minister of Hospitals and Medical Care; L.C. Leitch, Vice-President (Finance and Administration) of this University; G.W. Thompson, Dean of the Faculty of Dentistry; S. Greenhill, Youville Wing, Edmonton General Hospital; and M. Toner, Director of Resident Care, Rosecrest Home. □

*The fund raising efforts of the Society of Dentistry '82 have met with great success and Nora Ross, Director of Rosecrest Home (left), Stanley Greenhill, a senior physician at the Edmonton General Hospital, and Donna Wood, President of the Class of '82, are obviously pleased with the results.*

## Notes of Recent Vintage

The General Faculties Council meeting of Monday, 26 April, was short and to the point. Members of GFC welcomed to their ranks a number of new members. Undergraduate student appointees are Gerard Curley, Rehabilitation Medicine; Lorne Dach, Arts; Victor Tanti, Arts; Rhonda Hall, Education; Luma Ousta, Education; Glen Chabaylo, Dentistry; Patrick Fettig, Engineering; Steven Dunk, Engineering; Ken Gehman, Science; Gordon Stamp, Science; and Julia Lommerse, Physical Education and Recreation. Graduate students appointed to GFC are Aileen Sinton, English; Mike Folsen, Botany; and Doug Boer, Psychology.

Faculty appointed to GFC are

A.T. Pearson, Education; L.L. Stewin, Education; K. Dier, Nursing; and R.E. Moskalyk, Pharmacy and Pharmaceutical Sciences.

In addition, it was announced that Brian Bechtel has been appointed a student representative to the Board of Governors. John Day, Vice-President (Academic) of the Graduate Students' Association was also welcomed as a new member of GFC.

Campus committees are not built in a day but they can be dismantled with amazing speed. Remember the longstanding GFC Radio and Television Committee? It's with us no more, the victim of a 53-0 vote count in favor of dissolution.

Four members of The University

of Alberta Golden Bears Wrestling Team will travel to Japan for a trip extending from 16 May to 1 June. Scott Tate, Mike Payette, Tom McKee, and Blake Dermott, along with Assistant Coach Bill Dowbiggin, will join a contingent of wrestlers and coaches from the Alberta Amateur Wrestling Association.

The two-week journey to "the land of the rising sun" will see the wrestlers compete in dual meets in the cities of Asaka and Kyoto, as well as in the Western Japan Collegiate Wrestling Championships. The Alberta group will be billeted with Japanese wrestlers in their homes. City of Edmonton buses and vehicles will soon be sporting Universiade '83 decals. The move

to the "new look" is seen as "a small, but valuable part in the promotion of the 1983 World University Games," according to Jack Boddington, Vice-President of City Liaison for the 1983 Games.

And speaking of buses, the Senate will be journeying to Lloydminster in late September for its annual out of town meeting. The Senate will also visit Vegreville and Vermilion.

The Department of Romance Languages announces that Paolo Brezzi, Professor of Medieval History at the University of Rome, will speak on "Saint Francis of Assisi" on 30 May at 7:30 p.m. in the Conference Room of Commonwealth Stadium. □

## Warm Wishes Extended to Chancellor Forest

Emotions ran high at a luncheon held to honor Jean Forest, retiring Chancellor of The University of Alberta. Mrs. Forest chaired her final Senate meeting on 30 April and the regular Senate luncheon was turned into a Jean Forest testimonial as tributes and warm wishes poured in from Senate members past and present.

Betty Finch, a member of Senate for six years, gave the Senate a painting done by her son, well-known Alberta artist Ron Finch. The water color of the Pembina River Valley will hang in the Senate office "in honor of the Chancellorship of Jean Forest."

Rev. Tom Leadbeater presented Mrs. Forest with her gold desk set, a memento from the entire Senate.

And Mary Totman, Executive Officer of the Senate, in a rare and fitting tribute, presented the Chancellor with a leather bound copy of the many speeches she has made on behalf of the University during her four years

in office. "The speeches bound here (over 60 to date) represent only the tip of the iceberg," commented Mrs. Totman, referring to the countless hours of service Mrs. Forest has given The University of Alberta.

Her sentiments were echoed by Myer Horowitz, President of the University. "Mrs. Forest has been an active member of the University community for ten years, first as a Board member, then as Chancellor. On behalf of the entire University community, I want to thank you for all you have done for each and everyone of us," he said.

John Schlosser, Chairman of the Board of Governors, joined President Horowitz as they officially retired the robes worn by Mrs. Forest during her term as Chancellor.

Mrs. Forest, whose grace and candor have made her one of the most popular Chancellors in the history of The University of Alberta, completes her four-year term in June. □

Chancellor Forest in the company of John Schlosser (left) and President Horowitz.

## University Community Opposed to Proposed Bill C-10

Bill C-10, the new Canada Non-Profit Corporations Act, has met with considerable opposition from the Canadian university community. The bill, now before Parliament, would allow federal incorporation of degree-granting institutions with little or no scrutiny of academic standards. Under the proposed bill, the granting of federal letters patent would be automatic, leaving all regulation and quality control to provincial governments.

The Association of Universities and Colleges of Canada (AUCC) wrote to Consumer and Corporate Affairs Minister Andre Ouellet in late January, urging that he propose an amendment to Bill C-10 that would require

special procedures for the incorporation of universities.

The suggestion was initially refused by Mr. Ouellet, but, responding to a question in the House of Commons in April, he indicated that he might reverse his earlier decision and cooperate with the university community.

Asked if he was prepared to "work closely with the legitimate university community in Canada to devise safeguards to protect the integrity of the Canadian university community," Mr. Ouellet responded that he was "ready to entertain an appropriate amendment to the legislation to clarify this situation and avoid difficulties in the future." □

## Neurochemical Research Unit Receives Health and Welfare Grant in Excess of \$23,000

Three members of the University's Neurochemical Research Unit have been awarded a research grant from Health and Welfare, Canada. Ronald T. Coutts, Professor in the Faculty of Pharmacy and Pharmaceutical Sciences; Franco A. Pasutto, Assistant Professor in the same Faculty; and Glen B. Baker, Associate Professor in the Department of Psychiatry, will apply the \$23,465 grant to a research program entitled "Quantitative Analysis of Biologically Active Amines in Foodstuffs Available in Canada." The purpose of the research is the simultaneous, quantitative analysis of a number of biologically active amines in cheese, chocolate, and other food products used widely in Canada.

Found in a variety of foods,

amines are compounds with drug-like properties. Excessive levels of amines in the central nervous system can have numerous adverse affects, such as migraines and hyperactivity. According to Dr. Coutts, little is known about the actual quantities of amines found in foods, and his team hopes to compile a comprehensive list which would be of great value in alleviating health problems associated with foods and drug-food interactions.

Acting on behalf of Monique Begin, Minister of Health and Welfare, Senator H.A. (Bud) Olson presented a cheque to Dr. Coutts at a brief ceremony on 30 April in University House. Dr. Coutts hopes that the research program will receive similar grants from Health and Welfare over the next two years. □

## The Best of Friends

This must be the place, thought the *Folio* representative as he surveyed the array of hats resting atop the Lister Hall coat rack. That benevolent organization The Friends of The University of Alberta was about to hold its annual dinner meeting and when societal pillars gather and an observer who is a touch late is trying to locate them, the headgear clue must be investigated. Striding through the doorway he sees a good many familiar faces including those of Myer Horowitz who, as President of the University is Honorary Chairman of the Friends of The University of Alberta; R.E. Folinsbee, Chairman; and Dorothy Steiner, Secretary-Treasurer. He did not, however, see a great many empty chairs in the spacious dining room and so struck out for one smartly, knowing that genuine hospitality would be extended throughout

this April evening. The meal and the conversation do justice to the 1982 edition of the Friends' annual meeting (the organization was formed in 1943) and even lead one to wonder about the possibility of, say, biannual meetings.

The guest speaker on this occasion is J.G. Kaplan, Vice-President (Research) of the University. In a brief and forthright address, Dr. Kaplan said that a combination of high technology and a skilled labor force is essential if we are to flourish in the future. Such technology, he stressed, cannot exist without the presence of universities. Universities such as ours enrich society intellectually and complement this by directly spinning off new technologies to the community. He cited Chembiomed Ltd., The University of Alberta-owned manufacturing company that

markets immunal absorbants and other research products, as a firm that is in constant contact with many scientists. This relationship allows bright ideas to be speedily translated into viable activities.

"No university can afford to refuse the challenge of being and effective agent for change in society," Dr. Kaplan said. A community should receive generous fallout from a university and it is therefore essential that a university not cut itself off from its own roots which include the generating of new knowledge, the pursuit of truth, and the educating of people to their full potential.

The Friends also heard from retiring Librarian to the University Bruce Peel on the organization's generosity over the years in providing funds for the purchase of various books (Dr. Folinsbee would prove himself an audacious sort by remarking that Mr. Peel's words "spoke volumes") and R.G. Baldwin, Vice-President (Academic) and a member of the Friends' executive. Dr. Baldwin reported

that the organization had enjoyed another successful year. Twenty-five new members were welcomed, a development very much in keeping with the organization's hope that "an ever-widening circle will join the ranks so that through annual contributions it will be possible to acquire research equipment and other extras not provided for in the University budget, to purchase rare volumes for the library, to offer annual scholarships and bursaries, and to undertake the publication of books and papers compiled by members of the staff and students."

The Friends also sponsor the annual Henry Marshall Tory Lecture, thus bringing to campus such renowned personages as Wilder Penfield, Chester Ronning, and Northrop Frye. This year's lecture, scheduled for 26 October, will be presented by Harold Masursky of the U.S. Geological Survey, Flagstaff, Arizona. □

## Purchasing Department Announcement

The Purchasing Department is pleased to announce the appointment of Barry Lofto as Distribution Manager following the retirement of Lyall Foulston. Barry is returning to The

University of Alberta after a number of years in private industry, and we look forward to the benefit of Barry's proven administrative ability and his "outside" experience. □

## Alberta Bibliography Completed

Gloria Strathern, Associate Professor of Library Science, has just published *Alberta, 1954 - 1979: A Provincial Bibliography*. Aided by a grant from the Alberta 75th Anniversary Commission, the book represents the published history, literature, life and times of Alberta and Albertans between 1954 and 1979. The work, started by Professor Strathern in 1978, is a classified, annotated bibliography of more than 3,000 books, pamphlets and theses.

Professor Strathern, who has been on staff in Library Science since 1973, says her bibliography picks up where Bruce Peel, Librarian to the University, left

off in his book *A Bibliography of the Prairie Provinces to 1953*.

The main difficulty, says Professor Strathern, lay in deciding "just who was an Alberta author. So many people have come to Alberta and contributed to Alberta who are not native born Albertans. It was hard to draw the line."

But draw the line she did and the result — computer-produced, with author, title series, and subject indexes — is now on sale at the University Bookstore.

Professor Strathern is also the author of *Navigations, Traffiques and Discoveries, 1774-1848. A guide to publications relating to the area now British Columbia*. □

## Folio accepts display advertising

*Size and rates:* the basic unit size is 21 agate lines x 11 picas (1½" x 1¾"). The full page is divided into 22 such units, any combination of which is available at a cost of \$15 per unit. Half page costs \$165. One column costs \$82.50. A professional/business card unit is available at a cost of \$30. Discounts are offered for extended runs, please enquire.

*Other specifications:* half-tones (100-line screen or less) are acceptable; no colour or bleeds. Camera-ready copy is necessary. There is a charge of 30c per word for typesetting, and \$7.50 for adjustment of design work. Deadline for submission is one week prior to publication (Thursday, 3 p.m.). Acceptance of advertisements and positioning are at the discretion of the editor.

These rates are effective from 1 January 1981. For more information please telephone 432-2325 and ask about *Folio* display advertising or write to:

## Retiring Staff Members Feted at Function Hosted by Board

A special function was hosted by the Board of Governors last Wednesday, 5 May, at the Faculty Club and was attended by over two-thirds of the sixty-two academic and non-academic staff members who have reached retirement during the 1981-82 year.

The evening began with a reception during which the retirees and their guests were able to renew acquaintanceship, exchange hearty best wishes for the future, and talk to members of the Board and the senior administration. Dinner was served after a warm welcome was extended to those assembled by Janet Bentley, Chairman of the Board's Special Projects Committee, and by John L.

Schlosser, Chairman of the Board of Governors. The meal was followed by an address to the retirees from President Horowitz, who not only remarked on the inclement weather, but also pointed out that, as a group, the retirees represented some 875 years of service to the University and the people of Alberta in almost every area of our institution's academic and administrative functions.

The Chancellor, Jean B. Forest, then extended to the retirees her greetings and the greetings of the Senate. Mrs. Forest congratulated all present on their retirement and paid a special tribute to the University's loyal support staff as well as to those who have reached the

pinnacle in their scholarly works. Engraved silver trays were then presented to each retiree by members of the Board's Special Projects Committee and a response was made on behalf of the retirees by one of their number, former President of the University, Harry E. Gunning.

Dr. Gunning noted that those assembled, and especially Stuart G. Davis of Chemistry who joined the staff in 1942, had seen the University develop to be a true part of "the total community of Canada" as an institution that "has reached out and tried to help" in almost every human endeavor.

Dr. Gunning also remarked that notwithstanding the faults of a system of compulsory

retirement, the event provided an opportunity for a new course in life. A person, he said, could embark on a new career, perform back flips on a trampoline, and develop a feeling for jazz that really cooks.

Following Dr. Gunning's expression of thanks to the University, the formal part of the evening came to a close and the retirees and their guests were invited to remain and enjoy the balance of the evening. They did so with gusto.\*□

*\*On the following pages brief biographies of those who retired in 1981-82 are presented.*

*Former President H.E. Gunning and Board of Governors Chairman J.L. Schlosser at the retirement function.*

#### *Leonard Allbon*

Professor Allbon of the Faculty of Rehabilitation Medicine was born in the United Kingdom. There, he served for six years in the Royal Air Force and one year as Welfare Officer for the Red Cross. He completed his diploma training at the London School of Occupational Therapy, in both physical and psychiatric aspects of Occupational Therapy, and received his Teaching Diploma in Occupational Therapy in 1960. That same year, Professor Allbon emigrated to Canada and took on the position of Supervisor of the Division of Occupational Therapy at this University as well as the position of Lecturer for one year. In 1961, he was appointed Assistant Professor and, in 1970, was promoted to the rank of Associate Professor.

During his tenure with the Faculty of Rehabilitation Medicine, Professor Allbon served as Chairman of the Division of Occupational Therapy until 1973 and, from 1973 until 1981, was an instructor in the area of craft/skill development and in the psychiatric aspects of Occupational Therapy. Professor Allbon has been on special leave from the University since August, 1981.

#### *Ruby Anderson*

Professor Anderson of the Faculty of Physical Education and Recreation is an alumna of this University who gained both the baccalaureate and master's degrees here. Prior to her appointment as Assistant Professor in 1956, she served in the Saskatchewan and Alberta school systems. By the time of Professor Anderson's retirement in August, 1981, she had spent over thirty years at the University of Alberta as a student and member of faculty. She now holds the rank of Professor Emeritus.

#### *Thomas Atkinson*

Thomas Page Atkinson joined the staff of the Department of Elementary Education in 1963 with primary responsibilities for the mathematics education of prospective elementary school teachers. His early education was obtained in Alberta and before World War II he taught in rural schools in the Smoky Lake area. He spent the war years as a navigator in the RCAF and on repatriation completed his BSc in honors mathematics (cum laude) and his BEd at The University of Alberta. He then taught in Edmonton schools for several years. Since his appointment here Dr. Atkinson earned the MEd and PhD, both at the University of Oregon.

#### *Kenneth Bowers*

Dr. Bowers, Coordinator of the Audiovisual Media Centre and Curriculum Laboratory and Professor of Secondary Education, has had a distinguished career in audiovisual education and educational/instructional technology which has spanned four decades. From his experience as a classroom teacher in Washington state and a link trainer instructor with the Army Air Force, Dr. Bowers moved on to graduate study at New York University, receiving his doctorate in 1956. Dr. Bowers' professional history includes employment as Director of the Audiovisual Centre at West Chester State Teacher's College (Pennsylvania); Mass Communications Advisor (Santiago, Chile); Associate in Production, University of Texas; and an administrative post with the Audio Visual Service of the San Diego County Department of Education. He joined the Department of Secondary Education, University of Alberta, in 1966, attached to the Audiovisual Media Centre. Both Secondary Education and the AVMC have benefited from his services since that time. Dr. Bowers was also appointed Coordinator of the Curriculum Laboratory in July, 1981. Throughout his career, Dr. Bowers has maintained an active interest in planning facilities for the effective use of instructional technology. He has written on this topic and served on many committees in this area. His research and writing has extended into many other areas as well. Dr. Bowers has been very active in many professional organizations including a term as national President of the Association of Media and Technology in Education in Canada.

#### *Arthur Crighton*

Arthur Bligh Crighton has been a member of the Department of Music since 1949, having graduated with a Bachelor of Music degree from the University of Toronto the previous year. Apart from his many academic and professional awards and honors (MMus, 1962; DMA, 1965), Dr. Crighton is an acclaimed organist who is very well known, not merely to music lovers on campus — he conducted the University orchestra from 1950 to 1967 — but to church goers and devotees of organ music across Edmonton and beyond. He is also well known for *A Workbook for Music Analysis*, published in 1977.

#### *Anne Czebak*

Mrs. Czebak came to us from Yugoslavia, where she finished her schooling and where she grew up. Prior to her employment with the University which began on 5 January 1970, she worked as a supervisor for a janitorial company. Mrs. Czebak was a very dedicated and pleasant worker, affectionately called "Mom" by the building occupants — non-academic and academic alike — and she often received tokens of appreciation because of her helpful attitude and behavior.

Mrs. Czebak was a very appreciated employee in her area, as witnessed by her Building Superintendent who stated, "her type of dedication and loyalty is no longer found in the work force." The "gang" in the Physics-Chemistry complex wish her a happy retirement.

#### *Earle Dallyn*

Earle came on to the fulltime staff of the Faculty of Physical Education and Recreation in 1967. He contributed his fifteen years of service in the equipment room, finishing the last eight years as manager of the Education Gymnasium and equipment room. His pleasant manner contributed to the success of all the activity classes held in the Education Gymnasium and was appreciated by students and staff alike.

#### *Stuart George Davis*

Stuart George Davis is a native Albertan who obtained his undergraduate training at The University of Alberta and his PhD in Physical Chemistry from McGill University. He joined the staff of the University of Alberta in 1942 and has taught graduate and undergraduate courses for the past forty years. Dr. Davis is a Fellow of the Chemical Institute of Canada, has served as the Associate Chairman of the Department of Chemistry, and has in that capacity advised numerous undergraduate and graduate students on their programs and other matters. Over the years he has been a major contributor to the evolution of our Convocation Exercises. He has frequently had either or both of the Faculty golf or curling trophies in his possession. Dr. Davis was on the executive committee of the Faculty Club when the sod was turned for the present facility in 1963.

#### *Richard Dean*

Richard Dean joined the staff of The University of Alberta in 1964. He worked in Campus Security, achieving the rank of Sergeant before leaving the University in 1969. The Library was fortunate in recruiting Mr. Dean as a Library Checkpoint Attendant in 1972. Mr. Dean continued with the Library until his retirement in March 1982, with over seventeen years of continuous service. Ill health caused Mr. Dean to be absent prior to his retirement, and our hopes for early recovery go with him.

#### *Umberto DeMeis*

Mr. DeMeis is a native of Italy who emigrated to Canada in the mid-1950s and gained Canadian Citizenship in 1960. Having commenced employment at this institution in 1963, Mr. DeMeis transferred to Special Services as a Mail Carrier in 1970. In 1975, he became a Distribution Clerk with Scheduled Distribution. Mr. DeMeis was well respected and appreciated for his efficiency in performing his duties.

#### *Freda Donaghy*

Mrs. Donaghy joined the staff of the University Bookstore as a Sales Clerk II on 7 October 1968 having previously worked with Woolco and the Palace of Sweets. She continued in this position until an internal transfer in February 1974. Her new position and classification took her off the sales floor and into the accounts payable area with a classification of Bookkeeper I. This classification was retitled Financial Records Clerk in October of 1978. Mrs. Donaghy left the Bookstore and University in April of 1981.

#### *Francesco Pasquale Donato*

Mr. Donato was born in Amato, Italy. He came to Canada in the early 1950s and worked first for four years with Poole Construction, then for eight years with CN and the Northern Alberta Railway, followed by three years with Alberta Government Services. He joined Building Services at this University on 10 July, 1967, and gave us fifteen years of dedicated service. He was a much appreciated employee, and his colleagues wish him well.

#### *Rudolph Dux*

Mr. Dux began employment at this University as a journeyman Carpenter in 1961 in the Department of Physical Plant, at that time known as the Works Department. In 1968, when Projects and Maintenance became two separate divisions, Mr. Dux operated with Building Maintenance, where his expert trade knowledge contributed greatly to the efficiency of maintenance operations. In many ways Mr. Dux was more than a carpenter during his twenty years of service to this institution; he was a mechanic and was versatile in resolving physical problems, a characteristic that made him proficient in preventive maintenance in the Structure Section.

#### *Moir English*

A native of Northern Ireland, Ms. English emigrated to Canada at an early age and completed her high school education in Vancouver. She received her bachelor's degree from the University of British Columbia and following a year of teaching she moved into the world of business and administration. She decided to switch careers again, obtaining a master's degree in Library Science, and began her employment with the University in 1957 as Head Librarian of the Education Library. Several years later she moved to the Extension Library where, in addition to her other duties, she set up the Faculty's Adult Student Centre in Corbett Hall and began teaching courses in nature study and herb culture. In 1970, Ms. English decided to reduce her workload at the University to half-time in order that she could devote more attention to her other interests which include violin, piano, gardening, travelling and art.

#### *Paul Ensslen*

Mr. Ensslen was born in Malsche, Romania, where his family had extensive land holdings. He completed high school in Romania, later complemented by three years attendance at an agricultural college.

1957 found him working in the construction industry in Edmonton, working for plaster contractors, and he stayed in this line of work till he, on 19 October, 1967, joined Building Services at the University. He commenced work on the main campus, but spent his last ten years at the Edmonton Research Station and the Ellerslie Farm, where we understand he felt very much at home, and did a good job.

His hobbies are reading and gardening, and his colleagues hope his retirement years will give him ample time for both.

#### *Hal Fearon*

W.H. (Hal) Fearon, currently Assistant to the Dean of the Faculty of Medicine, is a native Edmontonian who gained his Senior Matriculation at Strathcona High School. Before coming to this University as an Administrative and Professional Officer in 1971, Mr. Fearon had engaged in a distinguished military career of almost three decades. From 1942 to 1946, Mr. Fearon served with the Royal Canadian Air Force, gaining the rank of Flying Officer and the position of Instructor. In 1946, Mr. Fearon transferred to the Royal Canadian Navy, later saw service in Korea, and was promoted to the rank of Lieutenant Commander in 1953, in which year he also served as Commanding Officer of the Experimental Squadron 10 in Dartmouth, Nova Scotia. From 1955 to 1971, Mr. Fearon held a variety of appointments in the navy: Lieutenant Commander Flying, HMCS Magnificent (1955); Staff Officer, Naval Headquarters, Ottawa (1957); Commander, Joint Services Staff College, Latimer, U.K. (1958); Operations Officer, HMCS Shearwater (1959); Executive Officer, HMCS Bonaventure (1963); Staff Officer, HMCS Dockyard (1965); Commanding Officer, Helicopter Squadron 50 (1966); Staff Officer, NATO Headquarters, Northwood, U.K. (1968). Mr. Fearon retired from the armed forces in 1971 with the rank of Commander. In the last decade, Mr. Fearon has been an active staff member at this University. In addition to duties with the Faculty of Medicine, he has served on a variety of committees including the Occupational Health, Safety, Fire and Emergency Measures Committee and the AASUA Salary Committee.

#### *Leo Fortier*

Mr. Fortier is a native of the United States, having been born in Sanford, Maine. Having moved with his family to Saskatchewan when he was three years old, he remained in that province as a farmer until 1966 at which time he came to Edmonton. After two years in private enterprise, Mr. Fortier joined the ground staff at The University of Alberta Hospital, where he was a valued employee for the next five years. In 1973, he joined the grounds division of the Department of Physical Plant.

Mr. Fortier and his wife, Margaret, have seven children and ten grandchildren.

#### *Lyall Foulston*

Lyall P. Foulston was born in Roland, Manitoba and gained his secondary education from Brickburn High School. After graduating in 1946, he started working for Gainers Ltd. as an inventory clerk and buyer in November of 1950, and was with that company until 1957. After leaving Gainers, he was self-employed in the contracting business for two years.

In November 1959, Mr. Foulston joined The University of Alberta as Supervisor Clerk I for the purpose of establishing a trades store. By the mid-sixties, the stores had become so successful, it was decided to expand it to include stationery, etc. as a full Central Stores. Subsequently, the increased size and volume created the need to computerize the inventory systems. In November of 1968, Lyall's contribution to the growth and success of the Central Stores was recognized by his re-classification as Central Stores Manager.

In September 1974, the old Special Services Department was combined with the Shipping and Receiving Department and Central Stores. At this time, Lyall was promoted to the position of Distribution Manager. He then set about to re-organize completely the various functions into an integrated Distribution Department, greatly improving both the service and efficiency levels. The present Distribution Department is essentially as it was established at that time. In April 1978, Mr. Foulston's position became that of an Academic Professional Officer. His ambitions now lie in the area of becoming a full-time farmer south of Beaumont, in the Leduc County, where he can specialize in producing high quality horse hay.

#### *Cornelius W. (Neil) Gillam*

A native of Minneapolis, Minnesota, Dr. Gillam obtained his formal education in the United States, and was awarded a BA from Carleton College, an MA in Economics and Government from the University of Minnesota, and both a JD (Law) and a PhD (Business, Economics, Government) from the University of Chicago. Prior to joining the fulltime staff of The University of Alberta in 1972, he held faculty positions at several universities and colleges including the University of California (Berkeley), the University of Chicago, Yale University, the University of Washington, the University of Pennsylvania, Stanford University, Central Washington State College, and two periods of service as a Visiting Professor at this University. Part of his tenure at Central Washington State was as Dean of Arts and Science. He is the author, co-author, or editor of over fifteen books as well as of many articles and papers. Dr. Gillam, who will retire on 30 June 1982, is a Professor in the Department of Industrial and Legal Relations, Faculty of Business Administration and Commerce.

#### *Stanley Greenhill*

Dr. Greenhill was born in Glasgow, Scotland. He was educated in Scotland and Canada, receiving his MD and DPH degrees from Toronto University. Since then Dr. Greenhill has earned the following specialist qualifications: Specialists in Internal Medicine, Royal College; Fellow of the Royal College of Physicians and Surgeons; Fellow, American College of Physicians; Member, Faculty of Community Medicine, Royal College of Physicians, London, England; and, Fellow, Faculty of Community Medicine, Royal College of Physicians, London, England.

Dr. Greenhill practised medicine fulltime in Edmonton for many years, then joined the Faculty of Medicine at The University of Alberta, on a part-time basis in 1947. From 1959 to 1981, he was a fulltime academic, serving as Professor and Chairman of the Department of Community Medicine. During his career at this University, he has served on many academic committees, as well as national research, advisory, and professional committees. He has acted as Occupational Health Consultant and Physician to industry and labor organizations. In the past few years, Dr. Greenhill has contributed much knowledge and experience as a Health Consultant for WHO and CIDA in such countries as India, Nepal, Sri Lanka, and Swaziland.

#### *Harry Gunning*

Harry Emmet Gunning is a native of Toronto who obtained his university education, a Master's Degree in English Literature and subsequently a PhD in Physical Chemistry, from the University of Toronto. Following postdoctoral work at the National Research Council in Ottawa and at Harvard University, he held staff appointments at the University of Rochester and the Illinois Institute of Technology and was appointed Chairman of the Chemistry Department of The University of Alberta in 1957. Professor Gunning served as President of The University of Alberta during the period 1974-1979.

In addition to his outstanding contributions to the photochemical sciences, he was instrumental in building the Chemistry Department into an internationally recognized centre of higher learning and research. He served two terms on the National Research Council and, for his contributions to Canadian life, he is a twofold recipient of the Alberta Achievement Award (1971 and 1979) and is an Officer of Guelph (1969), Victoria (1978) and Queen's University (1974). He will be honored by his fellow scientists with a Symposium on Pure and Applied Photochemistry at the 65th Annual Meeting of the Chemical Institute of Canada and will deliver the keynote speech to the Conference.

#### *Mary Henderson*

Professor Henderson joined the University's School of Library Science in 1970 and served as its Acting Director/Dean for five years. Although born in Saskatchewan, Professor Henderson received her education in Scotland and at the Universities of British Columbia and Toronto. Prior to becoming involved in library work she freelanced for various journals and the Canadian Broadcasting Corporation. During her career she has concentrated in the area of academic libraries where she has held positions as a cataloguer, technical services specialist and administrator in libraries in British Columbia, Saskatchewan, the Maritimes and Wales. Professor Henderson's professional activities have included membership on the National Library Advisory Board and president of the Canadian Library Association.

#### *Hayward Hinton*

Hayward W. Hinton was born and raised in Colinton, Alberta. He joined the University in 1964 and worked in various units of the former Vivarium and Health Sciences Animal Centre. In 1965, he received the Purina Laboratory Animal Care Certificate and, in 1973, the diploma of Laboratory Technician, awarded by the Canadian Association for Laboratory Animal Science. From 1977 until his retirement, Mr. Hinton worked as an Animal Technician in the Laboratory Animal Breeding Unit of Health Sciences Small Animal Program at the Ellerslie Research Station. Mr. Hinton was an excellent worker, carried out his duties with dedication, and was a highly valued employee.

#### *Kenneth Laverne Hudson*

Mr. Hudson was born in Leduc, Alberta. His schooling and early training took place in Warburg and Edmonton. In 1941, he underwent a war emergency training program in Calgary, leading to an eighteen-year career in the military and civilian aircraft industries. Mr. Hudson held a licence with the Department of Transport as an air engineer and was authorized to inspect and release several types of aircraft including the "Norseman," the "Lodestar" and the "Dakota." He spent six years as parts manager for G.B. Motors, and in 1965 he joined the Department of Physical Plant as a journeyman Millwright and three years later, in December of 1968, he was appointed a Building Superintendent II, a position he held to retirement. He had a good relationship with staff and building occupants and did a good job for us.

Mr. Hudson's interests are travelling, square dancing, and photography. His colleagues wish him a happy retirement.

#### *Charles Jellard*

Dr. Jellard retires on 30 June, 1982, from his position as Deputy Director of the Provincial Laboratory of Public Health, Edmonton, and Associate Professor in the Department of Medical Microbiology.

Dr. Jellard was born and educated in Great Britain. He graduated in medicine from Oxford University in 1942. After overseas service in the British army and training in microbiology at Cambridge and the London School of Hygiene and Tropical Medicine, he became Director of the Public Health Laboratory in Plymouth, England, in 1952. He moved to The University of Alberta in March 1968. Dr. Jellard has made significant contributions to our knowledge of diphtheria infections in Canada and has been co-director of the National Reference Service for Diphtheria of the Department of National Health and Welfare since it was established at the Provincial Laboratory in 1978.

#### *Rose Jones*

Mrs. Jones joined the Bookstore on 27 January, 1969 as a Sales Clerk I, having previously worked with Woolco. Mrs. Jones was re-classified to Bookstore Sales Clerk II on 1 February, 1974.

On 29 April, 1974 she was transferred internally to the accounts payable section and was re-classified as a Bookkeeper I. In October of 1978, her classification was retitled Financial Records Clerk.

Due to illness of a family member, Mrs. Jones resigned in January, 1982.

#### *Stanley Kita*

Mr. Kita joined this University's staff in 1963 after an already extensive career in various Canadian mines. As a Building Service Worker with the Department of Housing and Food Services, he worked in the Lister Hall residential complex and for three years in Pembina Hall. In 1979, Mr. Kita was assigned to Kelsey Hall, where he has been greatly missed since his retirement in January. That Mr. Kita did an outstanding job is reflected in his being awarded the "Employee of the Month" award for the department in September, 1981.

#### *Lydia Kolomejec*

Mrs. Kolomejec began her long career in University food services in September, 1952, at Athabasca Hall. As a cook with the Department of Housing and Food Services, she also worked at Lister Hall before transferring permanently to the SUB cafeteria in 1967. Although Mrs. Kolomejec officially retired in April, 1981, she still helps out with her excellent cooking on a part-time basis.

#### *Edward Lincoln*

G. Edward Lincoln has been teaching in the Department of Music since 1966 after an already distinguished career as a student of the piano in Winnipeg, London, and Paris. He has been broadcast in Britain and Canada and has appeared in concerts of chamber and orchestral music across this country and in the United States. At the time of his appointment to this University, Professor Lincoln also became the Alberta Director of the Western Board of Music. In 1974, he became the first Director of the board's central administration. In 1978, Edward Lincoln was promoted to the rank of Professor.

#### *Christine Loeffler*

Mrs. Loeffler retired from the staff of the Provincial Laboratory of Public Health, Edmonton, at the end of December, 1981. She was born in Vienna, Austria, and took her nursing training at the University of Vienna before emigrating to Canada. Mrs. Loeffler had been employed in the virology section of the Provincial Laboratory since February 1958. She was a Laboratory Technologist and was responsible for the production of cell cultures for diagnostic virology work.

#### *Lola Logan*

Mrs. Logan retired last fall, after serving this institution for over thirty-five years. Since 1945, she had been a member of the University's secretarial staff, mainly with the Faculty of Engineering. From 1968 to 1981, she was employed in the Office of the Dean of that Faculty. Upon retirement, Mrs. Logan took up residence in White Rock, British Columbia.

#### *John Mah*

Mr. Mah was born in China and received all of his schooling there. Mr. Mah joined Building Services at this University on 23 September, 1974. He was a quiet person who performed his duties very well and who enjoyed an attendance record far above average. His health began to deteriorate late in 1980, and it became necessary for him to stop working on 31 March, 1981, and spend his last few months as an employee with us on a disability pension.

Mr. Mah was well liked for his willingness and pleasant personality, and his colleagues hope that he will enjoy his retirement.

#### *Frederick R.A. Mennie*

Mr. Mennie left school in 1931 to begin work in farming. In November of 1968, he ceased working as a self-employed farmer and joined the maintenance staff at The University of Alberta Hospitals — from where he transferred to Building Services at this University on 1 February, 1971 as a Maintenance Worker I in the Clinical Sciences Building and surrounding buildings. Mr. Mennie's maintenance cart was aptly named the "Menniebago" and had but one speed, "Full ahead!" His vocabulary did not include the words "cannot do" — he couldn't pronounce them — and his "office" was the sub-basement off the machine room. There, tradesmen, superintendents, hospital supervisors and others at various times, would meet at noon to play cribbage and chat during lunch. Fred made the coffee and acted as host but he never overstayed a minute of the allowed lunch time, "as he had work to do!" His colleagues hope he enjoys his retirement doing something!

#### *Lynn Morgan*

After celebrating his 25th anniversary of association with the University last September, Mr. Morgan retired from his position as Associate Registrar. His first formal contact with the University came in 1954 with the National Employment Service. Two years later, he joined the Office of the Registrar and since that time remained in this area holding positions of Assistant to the Registrar and Assistant, Associate and Acting Registrar. During his twenty-five years of service, Mr. Morgan was involved in the development of the increasingly complex and evermore versatile methods and procedures employed by the Office of the Registrar. More specifically, he largely guided the office from its immediate post-war paper and pencil methods to computer-assisted procedures.

#### *Roger Motut*

Born in Saskatchewan, Dr. Motut holds a BA from Laval, BEd and MA degrees from Alberta, and a PhD from Washington (Seattle). After secondary school teaching in Alberta and British Columbia, he joined the Department of Romance Languages in 1958. Dr. Motut established and directed our first language laboratories. From 1964 to 1967, he served as Assistant Dean of Arts, and from 1972-75 as Chairman of Romance Languages. Dr. Motut has been heavily involved in committee work both at the University and within the province. He served as first Chairman of Arts Faculty's Canadian Studies Committee, was founding member and President of the Modern and Classical Languages Council of the Alberta Teachers' Association, and was founding member of the Alberta Cultural Heritage Council. He is a Member of the Order of Canada, and has received the Alberta Achievement Award as well as the international award of l'Ordre de la Pleiade.

#### *Adeline Ohlmann*

Ms. Ohlmann — who was called "Adeline" only by her close friends — was held in particular regard by administrative staff during her incumbency of twenty years at The University of Alberta. As secretary in 1960 for Mr. M.A. Rousell, she followed his career, and became, quite appropriately and deservedly, Executive Secretary to the Comptroller in 1974. Her work always befitted the position and her manner conveyed a share of authority. Mrs. Ohlmann, a "career secretary," retired formally in early 1981.

#### *Otto Olsen*

Mr. Olsen was born in Denmark and spent his early life there. He came to Canada in the middle 1950s, and spent almost twenty years working in various steel plants in the Edmonton area. He joined Building Services on 7 May, 1973, working the night shift in Cameron Library. He was a very capable worker and spent five years with the Lamping Crew, transferring back to his old job in March 1980. He consistently received good performance appraisals and retired with a well earned good reputation.

He left Edmonton shortly after his retirement to live with family in Palm Springs, USA, and said there was no way he was "gonna come back!"

#### *Peter Ondrejka*

Mr. Ondrejka joined the staff of The University of Alberta in February 1954. He was born in Czechoslovakia, where he served in the army before moving to Canada. Mr. Ondrejka was employed as an Animal Technician at the Provincial Laboratory of Public Health, Edmonton, for twenty-seven years until his retirement in April 1981.

#### *Joseph Osolinsky*

Mr. Osolinsky was born in Wakaw, Saskatchewan. He left school in 1936. May, 1945, found him in Edmonton with Crown Paving Ltd. where he spent eleven and a half years followed by employment with a steel plant in the Edmonton area. He joined Building Services on 17 January 1966, and his work and overall conduct on the job earned him a promotion to Supervisor on 1 June 1969. His Building Superintendent stated in his last performance appraisal: "...performance has been consistently above acceptable standards..."; "...has maintained an excellent rapport with his staff, co-workers, academic and non-academic staff as well as the students themselves..."; "...his presence will most certainly be missed after his retirement on 30 June, 1981." The University thanks him for fifteen and a half years of good service and wishes him the best in his retirement.

#### *Bruce Peel*

Bruce Braden Peel, Librarian to the University, was born in Ferland, Saskatchewan, and began his postsecondary education with teacher training at the Moose Jaw Normal School. Next he attended the University of Saskatchewan where he graduated with an honors BA in 1944 and MA and BLS degrees in 1946. Mr. Peel then embarked on a long and distinguished career in librarianship, first as "Canadiana Librarian" at his alma mater (1946-51), then as an employee of The University of Alberta. From 1951 to 1954, Mr. Peel served as Chief Cataloguer for this institution's library, a position that was followed by terms as Assistant Librarian (1954-55) and Acting Chief Librarian, before he accepted his current appointment as Librarian to the University. During his career here, Mr. Peel has seen the Library expand its holdings tenfold and enter a new age of automation in cataloguing and circulation.

The recipient of many honors and awards for his contributions to the study of western Canadian history, Mr. Peel is particularly well-known for his bibliographic works and for his study *Steamboats on the Saskatchewan*. In 1978, Mr. Peel was awarded the Queen Elizabeth Silver Jubilee Medal and, in the same year, was appointed to the National Library Advisory Board.

#### *Mary Petley-Jones*

Mrs. Petley-Jones was employed as a part-time photographer at the Provincial Laboratory of Public Health, Edmonton, until her retirement from The University of Alberta in June 1981. She was born in Edmonton and is the daughter of Dr. Herbert Jamieson, who was acting director of the Provincial Laboratory during the first World War and subsequently became a professor of medicine at The University of Alberta. Mrs. Petley-Jones joined the staff of the Provincial Laboratory in September 1956 and was also associated with the Department of Medical Bacteriology for part of her service with the University.

#### *W.S. Pierpoint*

W.S. (Bill) Pierpoint has been an employee in the Faculty of Medicine's Surgical-Medical Research Institute Animal Unit for seventeen years. During that period, he was promoted through the grids to Laboratory Animal Technician IV and gained several certificates from the Canadian Association for Laboratory Science, as a Junior, Senior and Master Animal Technician. Mr. Pierpoint was well respected by his colleagues as a dedicated, ambitious and popular employee.

#### *Richard August Priegnitz*

Mr. Priegnitz was born in Germany, where he finished schooling in 1932. Having come to Canada, he began an eleven year stint, in 1954, in the construction industry. He commenced employment with Building Services on 13 September 1965. Mr. Priegnitz began working on the night shift later moving to the afternoon shift and has worked in several campus buildings. His last assignment was in the General Services Building where his retirement left quite a hold, as he was never afraid to "go the extra mile." He was a neat and tidy worker, a good and a pleasant worker. He was promoted to a Building Service Worker III in March 1977. His colleagues miss him, and wish him a happy retirement.

#### *Jessie Purches*

Mrs. Purches is a native Edmontonian who received her secondary education at St. Mary's High School. After a career as a secretary for a number of public and private organizations, interspersed with extended periods in which she raised and tended her family, Mrs. Purches came to the University in February, 1974, as a temporary staff member in the Office of the Comptroller. In May, 1974, she was appointed to the post of Secretary in the Department of Plant Science, where she provided efficient and reliable support for three consecutive chairmen until her retirement in December, 1981. Mrs. Purches' cheerful disposition was greatly appreciated by all who met her.

#### *Alexander Racz*

Mr. Racz was born at the banks of the Danube in Budapest, Hungary. He completed his high school in 1936, later following up with three years at a textile technical school, from which he received his Diploma in 1953.

After arriving in Canada, Mr. Racz spent a few years working for Modern Building Cleaning Services, Capital Laundry and Building Products of Canada, till, on 4 April 1967, he joined Building Services. Mr. Racz has worked in several buildings on campus — always on night shift — and has spent the last few years in the Clinical Sciences Building. His good work and dedication earned him a promotion to Building Service Worker III in March of 1977. He will be missed in the Clinical Sciences Building.

#### *Wesley Randall*

Wesley E. Randall came to The University of Alberta in 1963 as the Administrative Assistant in the Department of Physics. He moved to the Faculty of Science as its first Professional Officer in 1968 and is currently Administrative Officer for Student Services in that Faculty.

Mr. Randall is well known and equally well liked by staff and students. He has acted in many capacities in the Faculty including Student Counsellor, Dean's Assistant, Faculty Budget Officer and Staff Supervisor. In 1972 he was elected to the Board of Regents of Camrose Lutheran College. He has been a member of the Pastoral Institute of Edmonton and the American Association for the Advancement of Science.

Mr. Randall is retiring from full-time service this summer but will continue to serve in the Faculty Office on a part-time basis.

#### *David Rankin*

Dr. Rankin, of the Department of Physics, is a native Calgarian who, after service in the Royal Canadian Air Force from 1943-45, took baccalaureate and master's degrees at the University of British Columbia, in 1948 and 1949 respectively. He is also an alumnus of this University, having gained his PhD in 1960.

After service at two other institutions, the University of Windsor and the University of Victoria, Dr. Rankin came to this institution in 1964 as an Assistant Professor; he was promoted to the rank of Professor in 1973. The author of more than forty research papers, Dr. Rankin's primary interest is Magnetotellurics and his research has been supported by a variety of federal and provincial funding agencies.

#### *David Reid*

From 1971 to 1981, Mr. Reid was Vehicle Fleet Supervisor in the Department of Physical Plant. As such, he was considered by his colleagues to be "Mr. Wheels" at this University. Remembering how cheerfully Mr. Reid accepted all the challenges posed him by the vast array of requests for vehicles from all parts of campus, Mr. Reid's colleagues wish him and his wife a happy retirement.

#### *Kenneth Rothwell*

Mr. Rothwell came to the Faculty of Dentistry, in 1968, as a Dental Technician in the Division of Removable Prosthodontics. Previous to this, he was the Senior Dental Technician Instructor at the Royal Canadian Dental Corps School, in Camp Borden, Ontario. In 1979 Mr. Rothwell was appointed to the position of Supervisor-Technician. In addition to his laboratory responsibilities, Mr. Rothwell contributed to the dental undergraduate program by demonstrating in laboratories and creating television presentations. He co-authored a publication, entitled "Tracheotomy Obturators," in the *Journal of Prosthetic Dentistry*. Mr. Rothwell is currently residing in St. Albert.

#### *Harold Schwarz*

A native of Austria, Dr. Schwarz emigrated to Canada after receiving his medical degree from Charles University in Prague. Upon arriving in Canada he attended this university where he studied in the Faculty of Medicine graduating with an MD. Dr. Schwarz joined the staff of the faculty's community medicine department in 1964 and has since held positions of clinical instructor, assistant clinical professor, and assistant and associate professor, the two latter positions in the division of family medicine. As a general practitioner in Edmonton since 1950, Dr. Schwarz has worked in a number of the city's hospitals including, the Royal Alexandra, Dr. W.W. Cross Institute and the Misericordia. His memberships in medical societies and organizations include the College of Physicians and Surgeons, the Edmonton Academy of Medicine, Military Surgeons of the United States and the Van Swieten Society in Austria. Dr. Schwarz was also awarded the Achievement Award of the Province of Alberta in 1978.

#### *Verden Andrews Sears*

Mr. Sears was born in Dapp, Alberta, where he completed his schooling at Poplar Dale School in 1933, followed by a year at Alberta College in 1936. Mr. Sears spent five years with the Capital City Box Company, then five years as a firefighter with the RCAF during World War II, till he, in September of 1945, began working as a painter. Three years later he started his own company which he operated for twelve years, after which he joined the Works Department at the University in February of 1961. Mr. Sears holds a Master Painters Licence and stayed in his trade until November of 1969 where he was appointed Building Superintendent for all University Farm areas.

He has a keen interest in the rural and farm environment and has been very effective as a Building Superintendent on the farms. Mr. Sears has taken early retirement and all wish him well for the future.

#### *William Skoropad*

William P. (Bill) Skoropad of the Department of Plant Science was born in Vegreville, Alberta, and before attending this University, served as a school teacher from 1937 to 1941 and in the Royal Canadian Air Force from 1941 to 1945. Having gained a BSc (Agriculture) and a MSc (Plant Breeding) in 1950 and 1951 respectively, he enrolled at the University of Wisconsin where he took his PhD in Plant Pathology in 1955. After a four-year stint as Research Officer with Agriculture Canada Dr. Skoropad came to this University's employ in 1959 and has since served in a variety of capacities; as Associate Dean of the Faculty of Agriculture and Forestry in 1967-68, as Acting Chairman of Plant Science in 1968-69, and most recently as Chairman of the same department for the past two years. Dr. Skoropad has engaged actively in research both in Canada and abroad, in the USSR and India.

#### *Peter Slobodian*

Mr. Slobodian was born in Mundare, east of Elk Island National Park. His background, before joining Building Service, on 27 October, 1966, was all farming, with a bit of time spent clearing brush and working in feedmills.

Mr. Slobodian has spent all of his time with the University in the Physical Education Complex; he was "one of the few" who didn't mind working on weekends, so he just stayed there...In the words of his Supervisor, "...often completes more work relative to established standards"; and his Building Superintendent, "...at 6'2" and 240 pounds, a gentle giant, who gave us fifteen years of dedicated service". His colleagues wish him a happy retirement.

#### *Margaret Steed*

Margaret E. Steed Henderson's varied career has included the following positions: Royal Army Medical Corps; Educational Consultant (Canadian Nurses Association); Nursing Consultant, World Health Organization in the Philippines; Advisor to Schools of Nursing (Alberta); visiting lecturer at the University of Western Ontario and California, San Francisco; and laterally as Professor and Associate Dean at the University of Alberta, which she joined in 1969.

Professor Steed's awards include membership in Kappa Delta Pi and Pi Lambda Theta. She was the first winner of the W.B. Saunders Scholarship for Graduate Education. Professor Steed has played an important leadership role in the Alberta Association of Registered Nurses by her participation on numerous committees. She has also been very active in a wide variety of community endeavors.

#### *Lloyd Steen*

Mr. Steen began his employment at this University in the Department of Physical Plant in 1955 as a journeyman electrician. He performed his duties with dispatch and was promoted to Electrical Supervisor of the Electrical Utilities high voltage crew. In 1975, Mr. Steen accepted the position of Special Projects Electrician to work on energy conservation projects and, in April 1977, he transferred to the newly established office of Energy Management to continue working in the University's accelerated energy conservation program. Mr. Steen retired in June 1981.

#### *Charles Stelck*

Charles Stelck took his geology studies at The University of Alberta (BSc, 1937 and MSc, 1941) and at Standord University (PhD, 1950). He has been Invertebrate Curator in The University of Alberta's Department of Geology since 1948. Previous to that, he was a geologist with Imperial Oil Ltd.

Dr. Stelck is the recipient of a number of honors and awards, for example; Fellowship in the Royal Society of Canada, honorary membership in the Canadian Society of Petroleum Geologists, and the Centennial Award granted by The Association of Professional Engineers, Geologists and Geophysicists of Alberta. In 1975-76, Dr. Stelck served as President of the Paleontological Division of the Geological Association of Canada.

#### *Barney T. Stephanson*

B.T. Stephanson was chairman of the Agricultural Engineering Department from 1974 to 1981. During his tenure with The University of Alberta, Professor Stephanson taught courses in farm power and machinery and was extensively engaged in the area of farm safety.

International work is another facet of his career. He was seconded to Trinidad (1966-67), Ghana (1968-73), and the West Indies (1981-82). The holder of a BE from the University of Saskatchewan and an MSc from the University of Minnesota, Professor Stephanson has been a longstanding member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta; the Engineering Institute of Canada; the Alberta Institute of Agrolgists; the Agricultural Institute of Canada; and the American Society of Agricultural Engineers. He is a charter member and a Fellow of the Canadian Society of Agricultural Engineering.

#### *Lewis Thomas*

Dr. Thomas joined the Department of History in 1964 and became its Chairman the following year, a post which he held until 1968. Prior to coming to the University, he taught at the University of Saskatchewan and was Saskatchewan's Provincial Archivist. As the archivist, Dr. Thomas was instrumental in building the archives into a model of their kind. He obtained his bachelor's and master's degrees from the University of Saskatchewan and received his doctorate at the University of Minnesota. As a historian, Dr. Thomas has authored numerous articles and six books, including his doctoral thesis, "The struggle for Responsible Government in the Northwest Territories," a work which is considered a landmark in western Canadian historical scholarship.

#### *James Tubbs*

Mr. Tubbs served as an Animal Technician at The University of Alberta from 1968 until his retirement in September 1981. For the first six years he worked in Animal Science and then since October 1974 in the Provincial Laboratory of Public Health, Edmonton. Mr. Tubbs was brought up in Saskatchewan and served in the Princess Patricia Canadian Light Infantry from 1935 to 1957, becoming company sergeant-major. He subsequently worked in Winnipeg before moving to Edmonton.

#### *Bastian Vanderhoek*

Bas Vanderhoek came to Canada from his native Holland in 1953 and began employment at the University in 1956. His duties lay in the Mimeograph Department in the Administration Building. Later that year, he took over the duties of relief operator in the Education Department's mimeograph room. Subsequently, he filled this position permanently and replaced Max Stitz as offset operator. University development saw the Mimeograph Department become a satellite of the Printing Services Department. Over the years Mr. Vanderhoek has served as custodian of the Third Christian Reform Church. An avid fisherman, he intends to use his leisure hours catching his limit in the waters of B.C. and Saskatchewan.

#### *Gertrude Whitty*

Mrs. Whitty joined Physical Plant Administration as an Administrative Clerk in November 1969, and was responsible for monitoring a number of Capital and Operating Accounts. Having come to Canada from Germany via the United States, Mrs. Whitty added a somewhat cosmopolitan flavor to the department. Unfortunately, during the past few years Mrs. Whitty had health problems which ultimately caused her to retire early in January, 1982.

#### *Euphemia A. Young*

Miss Young was born in Vawn, Saskatchewan, and had an agricultural background — she stated that she could operate "any kind of farm machinery." Miss Young took an early retirement, and she now lives in Meota, Saskatchewan, where she has property and where she feels at home.

As an employee with Building Services she enjoyed a good reputation; her abilities and performance were beyond questioning during the thirteen years she spent with us. Miss Young's colleagues wish her a happy retirement.

#### *Henry Ziel*

Dr. Ziel is a native of Buffalo, New York, who came to this University in 1962 to set up the Industrial and Vocational Education Program. He has long been interested in all aspects of teacher education and, in particular, all matters that relate to industry and the needs of industry and the preparation of teachers for industrial arts and vocational education. Dr. Ziel's backgrounds is multi-faceted. He started working as a tool and die maker, went on to become a high school teacher, and then became prominent in the upper management levels of Sperry Rand, Curtis Wright, the Bendix Corporation, and the Saudi Arabian Government Railways. He also established The Western Industrial Research and Training Centre at St. Albert, one of Canada's first centres to train mentally and physically handicapped people for productive jobs. He is a Fellow of the Royal Society for the Encouragement of Arts, Manufacture, and Commerce.

# One Vice-Chancellor's View of Tenure

The following is an extract from the address of Sir Peter Swinnerton-Dyer, retiring Vice-Chancellor of the University of Cambridge, to the Regent House of the University last fall. His remarks appeared in the Cambridge University Reporter, No. 5129, 7 October 1981.

"....Tenure, in the strong form which it takes in Britain, has already come under fire — partly because it has been put forward as the reason why universities cannot make quick economies. I am not one of those who would defend the British system of tenure; indeed the advantages to universities or to scholarship that are claimed for it seem to me disproved the evidence of other countries. In America, whose system is the closest to ours, it takes on the average seven years from obtaining a PhD to being considered for tenure; and half of those who are considered do not get tenure. Even when in America tenure is achieved there are escape clauses; a university can get rid of tenured staff if it lacks the money to pay them, or if it wishes to close down a whole activity. In most Western countries, the position is even more flexible. To most of its academic staff the university is in the position of any other good employer: it hopes to retain them permanently, it will pay them reasonable compensation if it fails to do so, but it gives them no absolute assurance. Even more significant, perhaps, is the fact that about one-third of British universities do not have tenure as we know it; staff are indeed appointed to the retiring age, but that appointment is subject to one year's notice. I have not seen in those universities the evils which tenure is meant to avert.

Moreover those who defend tenure, as implemented in this country, have two particular difficulties to face. The first is the inadequacy of the evidence on which it is given. Initial appointments are for a three-year probationary period, with tenure following if that period is successfully completed. In fact, the decision on tenure has to be

taken within two years of first appointment, and the pressures to give tenure are so strong that it is seldom refused. To be able to assess, on at most two years' evidence, that someone deserves to be employed in an exacting job for the next forty years in absolute security, would be remarkable; and it is no wonder that some of the decisions have turned out indifferently. Cambridge at least is free from this fault. The existence of Assistant Lectureships which are necessarily transitory and from which it is no disgrace not to be promoted, does mean that we

only give tenure to scholars of some maturity.

The other difficulty is at the other end of a career. There are academics who, as they age, do not abruptly move from full work to retirement. As a first step they abandon research for administration — which is reasonable enough, and indeed any university needs a good deal of help from academics to run itself. In due course they claim that they have done their fair share of administration and drop that too, though without returning to research. At the same time, the effort they put

into teaching falls off year after year. Some of them appear less and less often in lecture room and laboratory; others merely repeat the same ageing lectures from the same ageing lecture notes. It would recognize the realities of the situation if they held part-time office; there used indeed to be such an office in Cambridge, though it was intended to meet rather special needs. But they do not. Here, as in every university, there are academics who draw a full day's pay for half a day's work; and it is tenure that protects this state of affairs." □

## New Members Elected to Royal Society Include University of Alberta Trio

Three University of Alberta professors have been elected Fellows of the Royal Society of Canada. William J. Jones, Department of History; James G. MacGregor, Department of Civil Engineering; and Norman A. Page, Department of English, will be inducted into the Society at its annual meeting on 30 May. The induction ceremonies, to take place at the University of Ottawa, are a part of the Society's 100th anniversary celebrations.

Dr. Jones is a graduate of the University of London, receiving his PhD in 1958. He joined the staff of The University of Alberta Department of History in 1961, and served as its Chairman from 1975 to 1977.

Dr. Jones, an Elizabethan specialist who has published much on the legal history of the Chancery during the reigns of that monarch and her successors, is a fellow of the Royal Historical Society. He is currently the Canadian representative on the Anglo-American Conference of Historians which meets each year in London, England.

Named by the University as a McCalla Professor in 1981, Dr. Jones spent much of last year completing a major work on Sir Edward Coke, a man he describes as "one of the greatest of England's law reporters." He is also working on a forthcoming edition of 1640s newsletters written to the Earl of Bridgewater.

Dr. MacGregor received his BSc (with distinction) from The University of Alberta, and his MS and PhD from the University of Illinois. He joined The University of Alberta Department of Civil Engineering in 1960, and has achieved international recognition as an authority on the shear strength, stability and safety of concrete structures.

An active member of numerous University committees, Dr. MacGregor has also been very involved in the development of building codes for structural

design and reinforced concrete design for Canada, the United States, and Europe.

Dr. MacGregor has received numerous awards and medals for academic and technical achievements, has written more than fifty technical papers and has edited three books. He is one of a very small handful of civil engineers ever elected to the Royal Society.

Norman Page arrived at The University of Alberta in 1968, after completing his Bachelor's and Master's degrees at Cambridge University and his Doctorate at the University of Leeds. A Full Professor in the Department of English since 1975, Dr. Page teaches both graduate and undergraduate courses in the 19th and 20th century British novel.

In 1979 Dr. Page was honored with a Guggenheim Memorial

Foundation fellowship, a prestigious award which funded the research for his critical biography of British poet and scholar E.E. Housman, now near completion.

Dr. Page, an established expert on such well-known writers as Thomas Hardy, Henry James and Charles Dickens, is presently on study leave in England, where he is working on a biography of Edward Fitzgerald.

The Royal Society of Canada is considered to be Canada's most distinguished learned society. Founded in 1882 by the Marquess of Lorne, then Governor General of Canada, the Society endeavors to recognize high distinction and to stimulate achievements in the humanities, the social sciences, and the sciences by election to fellowship and by the awarding of medals, prizes and scholarships. □

Collection" in the pediatric section of the hospital's library and, because of Dr. Fried's extensive involvement in the development of the symposium, it will henceforth be called the "Charles T. Fried Pediatric Postgraduate Symposium."

The hospital staff, through the Medical Advisory Committee, awarded an Inuit sculpture bearing the inscription "To Dr. Fried for his contributions to the Health of Children in Alberta." □

### people

Delegates to the 65th Annual Chemical Conference of the Chemical Institute of Canada will hear from *Harry E. Gunning* on 30 May. An eminent Canadian chemist and former President of this University, Dr. Gunning will give the keynote address, "Making Innovation Happen in Canada." The conference will also hold a special symposium, in Dr. Gunning's honor, on all aspects of photochemistry.

*Charles T. Fried* (Pediatrics) was honored not once, not twice, but three times at the 10th Annual Post-Graduate Pediatric Symposium held at the Misericordia Hospital from 20 to 23 April. An endowment from the hospital board will set up and maintain the "Charles T. Fried

### service information

#### Coming Events

##### Music

##### SUB Theatre

16 May, 1:30 p.m. and 4 p.m. Yamaha Music School Concert for Parents and Relatives.

19 May, 7 p.m. Kate and Anna McGarrigle in concert. Tickets \$12 at BASS.

##### Lectures and Seminars

##### Alberta Heritage Foundation for Medical Research

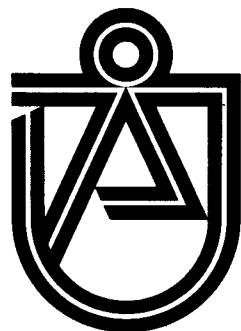

##### — Department of Anatomy

17 May, 4 p.m. Gabriel G. Altmann, University of Western Ontario, on "The Intestinal Model of Cell Renewal." 6-28 Medical Sciences Building.

##### — Departments of Biochemistry and Genetics

18 May, 4 p.m. Jack Maniloff, University of Rochester, New York, on "Mycoplasma Viruses: Structure and Replication Strategies of Phages that Infect Prokaryotes without Cell Walls."

19 May, 4 p.m. Dr. Maniloff will speak on "Evolution of Mycoplasmas, Prokaryotes

For 75th  
Anniversary  
Program  
Information  
432-2325

Having a Minimal Genomic Content: Evaluation of Oligonucleotide Fingerprint Phylogenetic Data." Dr. Maniloff's lectures will be held in 2-27 Medical Sciences Building.

### — Visiting Lecturers for the CABS 82 Biological Safety Conference

26 May, 10:50 a.m. D.F. Liberman, Biohazard Assessment Officer, MIT, Cambridge, Mass., on "Occupational Hazards in the Microbiology Laboratory: Past, Present and Future."  
27 May, 9 a.m. D.L.H. Robinson, Scientific Advisor in Microbiology, Department of Health and Social Security, London, U.K., on "Safety Assurance in Microbiological Laboratories in the U.K."  
27 May, 10:35 a.m. M.S. Barbeito, Chief of Safety Operations Section, OH & S Branch, Division of Safety, NIH, Bethesda, Md. U.S.A., will speak on "Management and Storage of Hazardous Chemicals." These seminars will be held in 2-31 Medical Sciences Building.

### Theatre

Studio Theatre  
6 to 15 May. 8 p.m. Tom Stoppard's "Night and Day." 3-146 Fine Arts Centre. For information, phone 432-2495.

### Theatre Francais d'Edmonton

26 to 30 May, 8 p.m. Jean Poiret's famous comedy "La Cage Aux Folles" in the auditorium of Faculte Saint-Jean. For more information and reservations, please telephone 469-0829.

## Non-Credit Courses

### Faculty of Extension

#### Applied Behavioral Sciences Problem Solving Excellence

Date: 31 May and 1 June. Time: 9 a.m. to 4 p.m. Fee: \$35.

#### Families: Decisions? Decisions? Decisions? — Creating Change in Family Process

Date: 2 to 4 June. Time: 9 a.m. to 4:30 p.m. Fee: \$90.

### Effective Helping

Date: 14 and 15 June. Time: 9 a.m. to 4 p.m. Fee: \$30.  
For more information, phone 432-5069.

### Devonian Botanic Garden

#### Natural Plant Dyeing

Date: 3, 5, and 6 June. Fee: \$50.

## Computing Services

### Client Training Sessions

Computing Services is taking registrations between 8:30 a.m. and noon for the following non-credit courses. For further information, please telephone Information Services at 432-2463, or come to 319 General Services Building.

### Advanced Text Formatting

Course number: 724. Date: 10, 12, 17 and 19 May. Time: 2 to 4 p.m. Fee: \$15.  
Prerequisites: "Introduction to Text Formatting" course or equivalent familiarity

with TEXTFORM. Place: 327/328 GSB.

### Introduction to Computing

Course number: 656. Date: 17 May. Time: 11 a.m. to 1 p.m. Fee: \$5. Prerequisites: No previous computing experience, but familiarity with a keyboard is required. Place: 351 GSB.

### MTS and Editor Fundamentals

Course number: 674. Date: 19 and 21 May. Time: 11 a.m. to 1 p.m. Fee: \$10.  
Prerequisites: "Introduction to Computing" or equivalent working knowledge of a DECwriter terminal and MTS. Place: 351 GSB.

### MTS Overview

Course number: 701. Date: 25 and 27 May. Time: 10 a.m. to noon. Fee: \$10. Prerequisites: "MTS and Editor Fundamentals." Place: 328/357 or 328/327 GSB.

### SPIRES

Course number: 738. Date: 26, 28 and 31 May 2, and 4 June. Time: 9:30 a.m. to 1 p.m. Fee: \$20. Prerequisites: "MTS and Editor Fundamentals" and a good working knowledge of file editing and terminal use. Place: 328/351 GSB.

### Data Preparation for Statistical Packages

Course number: 740. Date: 31 May. Time: 1 p.m. to 4 p.m. Fee: \$5. Prerequisites: "MTS and Editor Fundamentals." Place: 328 GSB.

## Notices

### Clinical Sedative Trial

Insomniacs: Do you (1) take longer than one-half hour to fall asleep, (2) sleep less than 6 hours a night, (3) wake too early or (4) wake up more than twice a night? Clinical sedative trial underway. Break the cycle. Limited numbers accepted. Call Dianne at Research Clinic, Clinical Sciences Building, 432-6480 or 432-6599.

### Swimming Lessons

Swimming lesson registrations are now being taken by the Faculty of Physical Education and Recreation for four summer programs: 31 May to 25 June, 28 June to 9 July, 12 to 23 July, and 26 July to 6 August. The classes are offered to adults and children at all Red Cross Learn to Swim levels. RLSS Life Saving, and in specialty areas (diving, synchronized swimming, stroke improvement). To register, telephone 432-3570.

## Positions Vacant

The University is an equal opportunity employer but, in accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

### Department of Educational Administration Non-Tenured Academic Positions

Applications are invited for two non-tenured academic positions in Educational

Administration. Duties will involve teaching graduate/undergraduate level courses and supervision of graduate student research. Candidates should hold a PhD or equivalent in Educational Administration. Specializations in educational planning, educational finance and/or educational research and statistics are preferred. The appointments will be effective 1 September 1982. The salary will be between \$15,600 and \$29,370 commensurate with qualifications. These are to be eight and/or twelve-month appointments and may be renewed subject to availability of funds and performance review.

Applications including a current curriculum vitae and names of three references should be sent to: Chairman, Department of Educational Administration, The University of Alberta, Edmonton, Alberta, T6G 2G5. The closing date for accepting applications is 1 August, 1982.

### Non-Academic Positions

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, third floor, SUB, telephone 432-5201. Please do not contact the department directly. Positions available as of 6 May 1982.

Clerk Steno II (\$1,106-\$1,324) — Anatomy  
Data Entry Operator (\$1,185-\$1,426) — Computing Services  
Clerk Steno III (\$1,232-\$1,487) — Obstetrics and Gynaecology  
Clerk Steno III (Trust) (\$1,232-\$1,487) — Academic Staff Association  
Dental Assistant II (Trust) (\$1,324-\$1,616) — Mobile Dental Clinic  
Secretary (\$1,373-\$1,682) — Administrative Services  
Medical Steno (\$1,373-\$1,682) — Medicine  
Departmental/Executive Secretary (\$1,548-\$1,908) — University Collections  
Computer Assistant (\$1,106 - \$1,324 — Computer Services  
Laboratory Assistant II (\$1,106-\$1,324) — Provincial Laboratory  
Technical Assistant (\$1,232-\$1,487) — Physical Plant (Design and Construction)  
Technician I (\$1,426-\$1,754) — Entomology  
Building Services Worker IV (\$1,487-\$1,829) — Physical Plant (Building Services)  
Computer Operator (\$1,487-\$1,829) — Computing Services
